Labor Category / Position Descriptions

1. Program Manager

Experience Requirement: 8 years of supervisory/managerial experience with at least 4 years experience in managing or directing IT programs. Must be seasoned at organizing, communicating, scheduling and giving presentations.

Responsibilities: Manages the activities for a program or particular customer. This would involve directly interacting with a customer's senior management, overseeing daily program operations, directing the long term completion of a program, allocating resources and resolving any program issues. Acts as the primary management contact for a given program.

Educational Requirements: Master's degree or equivalent.

2. Technical Consultant 2 (Senior)

Experience Requirement: 10 years of general experience, which includes at least 5 years of experience in information technology or other relevant technical area.

Responsibilities: Serve as a senior technical consultant with expertise in information technology. Provide advice and solutions to technical problems, drawing from a diverse knowledge of technical disciplines and experiences. The individual in this position resolves issues, reviews technical details, and oversees complex technical analysis. The position is one of a senior manager of the technical aspects of a program and interfaces with senior business and technical program managers.

Educational Requirements: Master's degree or equivalent.

3. Technical Consultant 3 (Principal)

Experience Requirement: 12 years of general experience, which includes at least 8 years of experience in information technology or other relevant technical area.

Responsibilities: Serve as principal technical consultant with broad expertise in information technology. Provides consultation and advice for complex technical problems, drawing from a diverse knowledge of technical disciplines and experiences. The individual in this position proposes solutions to larger program issues, reviews architectural design, and directs analysis of technical concerns across the program. The position is one of a principal technical manager, who routinely provides support to senior management and senior customers.

Educational Requirements: Master's degree or equivalent.

4. Configuration Management Specialist

Experience Requirement: 5 years of configuration management or other related experience.

Responsibilities: This position oversees the configuration management efforts for a project. The responsibilities may include directing the CM data collection and management, preparing and modifying the CM processes and procedures, planning and directing CM audits, managing the configuration control process, and determining what items should fall under CM. Functions as a lead CM team member and often serves as a supervisor to more junior team members.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

5. Documentation Specialist/Technical Writer

Experience Requirement: 0-2 years of general experience with strong documentation and writing skills.

Responsibilities: The responsibilities may include a document preparation, document management, proofreading, formatting, technical writing, editing tasks. Tasks will be performed under supervision or following instructions from a supervisor.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

6. Information Assurance / Security Engineer 2

Experience Requirement: 2 or more years of experience in IT security or in an information assurance domain.

Responsibilities: This is a junior level security / IA position. The responsibilities may include information assurance or security support of IT systems, facilities, software applications, components, or enclaves. General tasks would be performed under the guidance of a supervisor or more senior team member while subtasks may be self-directed.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

7. Information Assurance / Security Engineer 3 (Senior)

Experience Requirement: 5 or more years of experience in IT security or in an information assurance domain.

Responsibilities: Performing security design, IA control planning and implementation, performing stop-gap assessment, risk and vulnerabilities assessments and remediation, review of system security controls, and development of IA documentation. The responsibilities may include information assurance or security analysis of IT systems, facilities, software applications, components, or enclaves. Performing self-directed activities, collaborating with other team members, and also providing guidance to junior team members.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

8. **Information Assurance / Security Engineer 4 (Principal)**

Experience Requirement: 8 or more years of experience in IT security or in an information assurance domain.

Responsibilities: Supervising and leading of the security / IA activities. Performing security design, IA control planning and implementation, performing stop-gap assessment, risk and vulnerabilities assessments and remediation, review of system security controls, and development of IA documentation. The responsibilities may include information assurance or security analysis of IT systems, facilities, software applications, components, or enclaves. Functions as a lead security / IA specialist and often serves as a supervisor to more junior team members.

Educational Requirements: Bachelor's degree or 4 years of relevant experience, with relevant IA certification as needed.

9. **Systems Analyst 1**

Experience Requirement: 0 to 2 years of experience in systems analysis or in a related area.

Responsibilities: This is an entry level analyst position. The responsibilities may include analysis of IT systems, software, or components. Tasks would be performed under the guidance of a supervisor or more senior analyst.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

10. **Systems Analyst 2**

Experience Requirement: 2 or more years of experience in systems analysis or in a related area.

Responsibilities: This is a junior level analyst position. The responsibilities may include analysis of IT systems, software, or components. General tasks would be performed under the guidance of a supervisor or more senior analyst while subtasks may be self-directed.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

11. **Information Assurance / Security Analyst 1**

Experience Requirement: 0 to 2 years of experience in information assurance analysis or in a related area.

Responsibilities: This is an entry level analyst position. The responsibilities may include information assurance or security analysis of IT systems, facilities, software applications, components, or enclaves. Tasks would be performed under the guidance of a supervisor/senior team member.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

12. Information Assurance / Security Analyst 2

Experience Requirement: 2 or more years of experience in information assurance analysis or in a related area.

Responsibilities: This is a junior level analyst position. The responsibilities may include information assurance or security analysis of IT systems, facilities, software applications, components, or enclaves. General tasks would be performed under the guidance of a supervisor or more senior analyst while subtasks may be self-directed.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.

13. Information Assurance / Security Analyst 3 (Senior)

Experience Requirement: 5 or more years of experience in information assurance analysis or in a related area.

Responsibilities: Conducting analysis, vulnerability scanning and assessments, security documenting analysis, preparation of IA documentation. The responsibilities may include information assurance or security analysis of IT systems, facilities, software applications, components, or enclaves. Performing self-directed analysis, collaborating with other team members, and also providing guidance to junior team members.

Educational Requirements: Bachelor's degree or 4 years of relevant experience.
